Highlights

Watch Digital Satellite Television on your Mac

EyeTV 310 enables you to receive unencrypted digital satellite television (DVB-S and DVB-S2) and DVB radio broadcasts on your Mac. EyeTV 310 also has an integrated CI slot for digital satellite PayTV. EyeTV 310 supports DVB-S multilingual programming, Teletext and Dolby® Digital sound. With EyeTV 310 you can receive both standard television and HDTV (in MPEG-2 and H.264/AVC).

EyeTV 3 software inside

- Watch, rewind, fast forward, and pause live TV on your Mac for superior quality recordings
- Record hours of television and edit out unwanted content
- Create TV series subscriptions with Smart Guides
- Organize recordings in Smart Playlists
- Export recordings automatically to your iPod®, iPhone™ or Apple TV®
- Access recordings via Wi-Fi and share with other Macs on a local network

Enclosed you will find

- EyeTV 3 digital TV recorder software (CD-ROM)
- EyeTV 310 TV Tuner
- Infrared remote control with battery pack
- FireWire cable
- Power Supply
- PDF product manual (CD-ROM)
- Quick Start Guide
